REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: **the specific limitations of "suspension means for suspension of a plurality of abrading disc having abrasive means for abrasion of a side of the substantially plane items, wherein the plurality of abrading discs have undercut grooves for reception and fixing of profile of profile rails which form a part of elongated abrasive elements comprising the abrasive means, said grooves preferably extend in a mainly radial direction on a face of the abrading disc" in the combination as claimed in claims 1,18, are not anticipated or made obvious by the prior art in the examiner's opinion. For example, Bando (4,228,617) discloses an abrading device for abrasion of a substantially plane items (form of workpiece), said device comprising: a conveyor belt (51) for moving the substantially plane items in a direction of feed, a common slide (65), a plurality of abrading discs (75-78) mounted on the common slide, the disc including abrasive element for abrasion of a side of the substantially plane items (see fig. 1) a first motor (110) for driving rotation of the abrading discs around axes, which are substantially perpendicular to the side of the workpiece (see fig. 1); and a second motor (70) for driving the abrading discs by which the abrading discs is advanced and retracted transverse to the direction of the feed of the workpiece. However, the art of record considered as a whole, alone or in combination fails to provide or suggest "suspension means for suspension of a plurality of abrading disc having abrasive means for abrasion of a side of the substantially plane items, wherein the plurality of abrading discs have undercut grooves for reception and fixing of profile of profile rails which form a part of elongated abrasive elements comprising the abrasive means, said grooves preferably extend in a mainly radial direction on a face of the abrading disc".**

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
